

▶▶▶ **Invance** Driven pulley

The unique design of the **Invance** driven pulley sets new standards of durability and performance.

▶▶▶ The **Invance** is an innovative driven pulley that stands out by:

- Its very simple patented design featuring very few components
- Its unique patented dual cam shoe design
- The reduction of friction allowing maximum power use
- A good ventilation of the system for heat reduction
- Made with the best materials
- Modern manufacturing
- Precise assembling
- Maintenance free
- Maximum diameter: 250 mm
- Minimum diameter: 240 mm

▶▶▶ The **Invance** with its inverse cam system is simple and provides great performances.

▶▶▶ Applications:

SNOWMOBILES

UTV

ALL-TERRAIN
VEHICLES
